

## LOW COST CANINE VACCINATION CLINIC & DISCOUNTED CITY PET LICENSING

June 18th, 2022 ~ 10AM to 2 PM

Location: Sagehills Vet Parking Lot

**\*PLEASE NOTE: All DOGS must be in carriers or on leashes\***

This low-cost clinic is not intended to replace the relationship between pet owners and their regular veterinarian. Only basic services are available at this clinic and veterinary advice on other matters will not be provided. It is important for an animal's overall health and well-being to be seen regularly by a private veterinarian.

- Limit of 4 animals per household. Do not bring sick animals to the clinic. Consult with your regular veterinarian if your animal is ill or injured.
- Aggressive animals may be turned away and referred to private veterinarians where their special needs can be more easily accommodated.
- This clinic does not provide general health exams.
- Please be aware that we discuss spay and neuter options with all clients as part of our mission.

### Indemnity/Release

Without exception, I assume full responsibility for any harm caused by my pet(s) while attending the "Low cost canine vaccination clinic and discounted City pet licensing" event and I accept full financial responsibility for any damage(s) to persons or properties as a result of my pet's actions at the clinic.

I hereby release the Hands 'N Paws, Adams County Pet Rescue, and Sagehills Veterinary Services, including all veterinarians, assistants, volunteers, directors, officials and employees from any and all claims arising out of or connected with me and my pet(s) participation in the clinic and the performance and administration of any vaccines, including any adverse reactions from vaccinations. I agree that I have not and will not claim any right of compensation from them, or any of them, or file action by reason of such vaccination(s) of my pet(s) or any consequences related thereto. I further agree to indemnify and hold City of Othello, Adams County Pet Rescue, and Sagehills Veterinary Services, harmless for any damages caused by or to me or my pet(s) during the "Low cost canine vaccination clinic and discounted City pet licensing" event

### Possible Signs/Symptoms of Vaccine Reaction

Vaccine reactions, although rare, can sometime occur. The protection against disease that vaccines provide far outweighs the potential risks associated with vaccination. Your pet may be slightly lethargic, have a decreased appetite, scratch at the injection site, and/or run a slight fever for the first 24-72 hours after receiving vaccines.

Rarely a more serious reaction can occur. Symptoms of a more sever vaccine reaction may include:

- Severe and prolonged salivation, vomiting and/or diarrhea
- Skin hives, facial swelling, etc

These more serious reactions usually occur within a matter of minutes to a few hours following vaccination. If any of these occur, your pet needs to be seen by a veterinarian as quickly as possible as some may be life-threatening. A fairly common finding after receiving a vaccine can be a small, marble sized mass at the injection site. As long there is no overt pain or discharge, this side effect is not considered dangerous. This lump can persist up to 3 months.

I understand that vaccinations may cause adverse reactions in some animals. I hereby release Adams County Pet Rescue, City of Othello, Sagehills Veterinary Services, the veterinarians, assistants, staff and all volunteers from any and all claims arising out of, or connected with, giving these vaccinations.
